

13 March 1978

REMINDER MEMORANDUM

SUBJECT: Conversation with University Presidents,  
10 March 1978

1. We need to start at the high school level.
2. We need to have a good explanation as to why we need an intelligence system.
3. Perhaps you should look at the numerous guidelines the new Executive Order requires be established in public speeches dealing with the oversight process, and just listing what these guidelines are could give some indication of the fact that there will be control.

STANSFIELD TURNER
